

BACKGROUND

EXOPLANETS

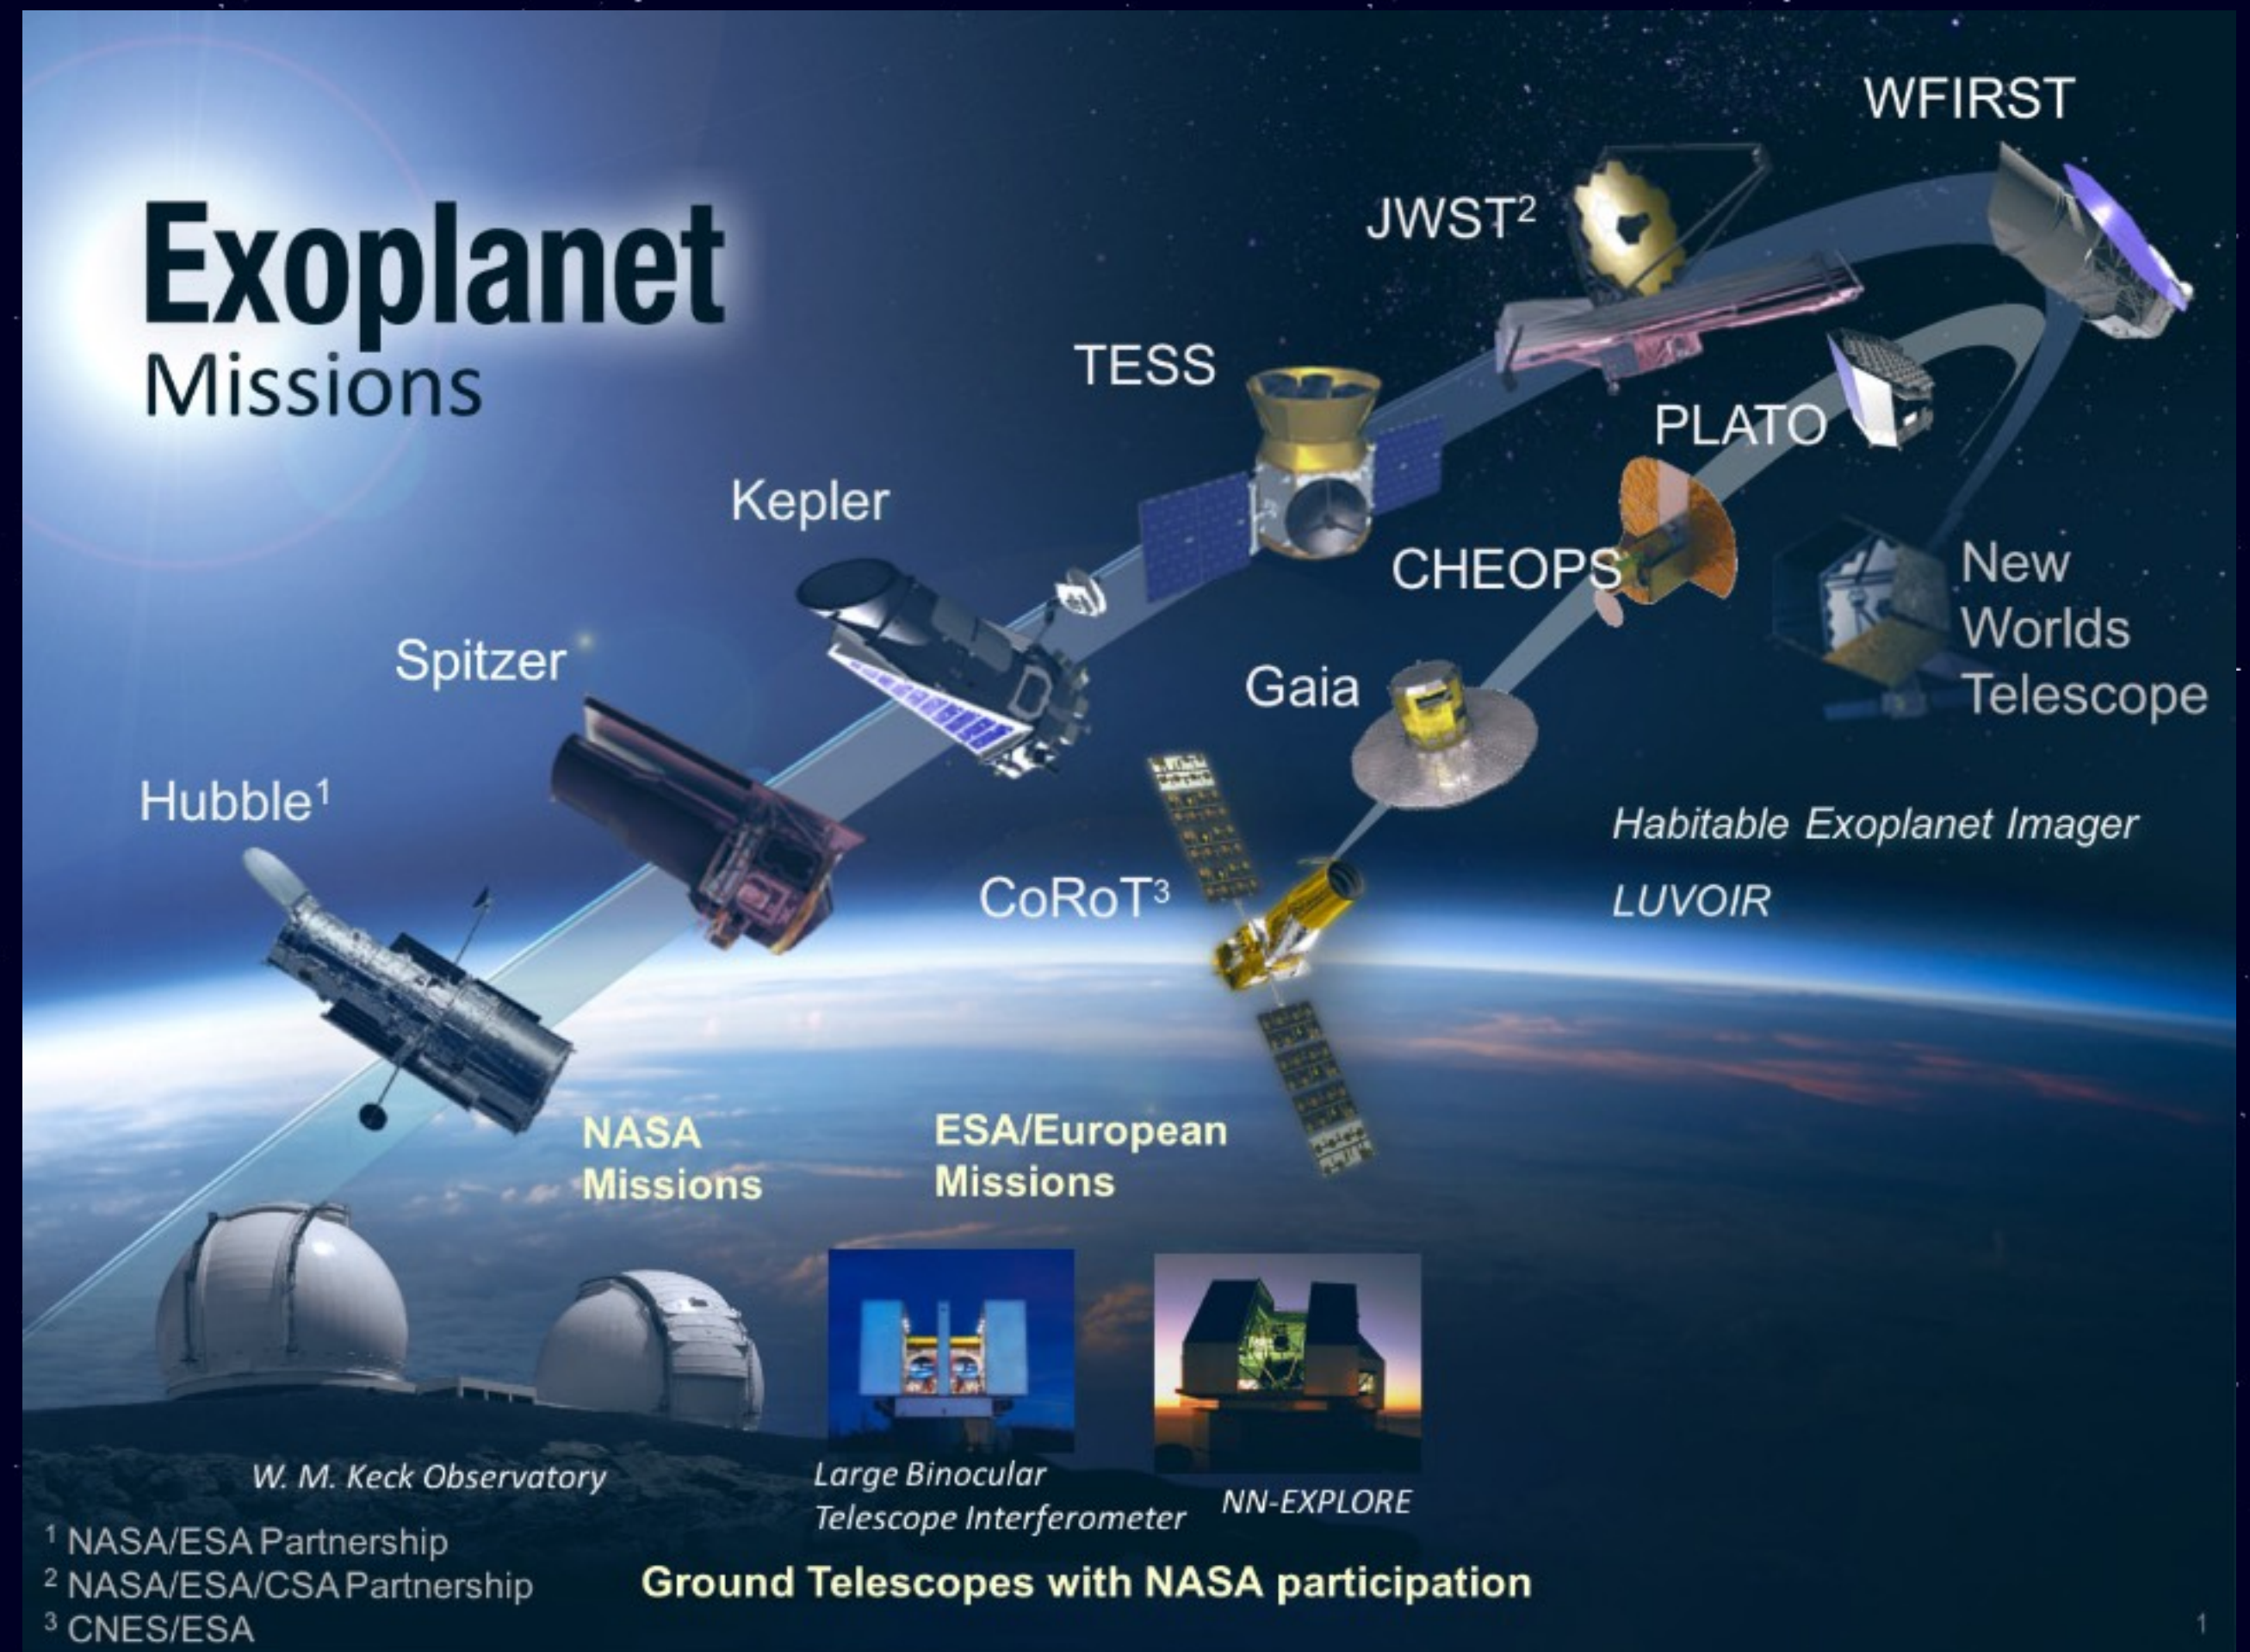

- Kepler: signals - longer time periods
- K2: signals - shorter time periods
- TESS: signals and full frame images

PULSARS (DEAD STARS)

- HTRU2: statistical properties of signals

GALAXY/STAR FORMATION

- JWST: full-frame images

source: NASA / ESA / T. Wynne / JPL / Barbara Aulicino

VISION

Breaking the analytical barriers of time and space

- Can we combine data from multiple telescopes?
